DORDA BRUGGER JORDIS advises BWT on the acquisition of Christ Water Technology's pharma business

Andreas W. Mayr and Jürgen Kittel, partners and M&A experts at DORDA BRUGGER JORDIS, advised Vienna Stock Exchange listed Best Water Technology Group (BWT) on the acquisition of the pharmaceutical water activities of listed company Christ Water Technology AG (CWT) as well as on the acquisition of a 49% stake in Zeta Group. Due to corporate governance reasons, the transaction has been voluntarily approved in both BWT's and CWT's annual shareholders' meetings.

With this acquisition, BWT expands its product range to complete solutions for pure and ultra-pure water, water for injection purposes, sterile steam, cleansing systems and pharmaceutical waste water treatment, which will be branded "Christ Aqua Pharma & Biotech". In addition to customer-focused sites in Switzerland, Germany, Sweden and Ireland, the acquisition allows BWT to extend its presence to important markets outside Europe such as China, India and the USA.

"We advised BWT on a complex restructuring four years ago and are pleased to have successfully closed another transaction for our client", says Andreas W. Mayr.

BEST WATER TECHNOLOGY Group is Europe's leading water technology company. BWT offers state-of-the-art water treatment technologies for drinking water, heating water, boiler water, cooling water and water for air-conditioning systems as well as swimming pool water.
